

HEIGHT SAFETY  
GUIDE

# Murphys Height Safety

---

## Height Safety Systems

Murphy's have the ability to design and install height safety access systems including:

- Static line systems
- Anchor points
- Walkways
- Permanent hand rails
- Ladder brackets
- Permanent Ladders

All to comply with Australian Standards AS1891 Industrial Fall Arrest and AS1657 Fixed Platforms, Walkways, Stairs and Ladders.

# Testing and Certifications

---

Murphy's has the expertise to inspect, verify compliance and certify height safety access systems. We can cover your organisation's inspection and rectification needs, improving installations where necessary, in order to meet Australian Standards AS1891 Industrial Fall Arrest and AS1657 Fixed Platforms, Walkways, Stairways and Ladders.

## Scaffolding

---

Murphy's have the in-house capability to erect all major types of scaffold:-

- Access stair towers
- Tube and fit scaffolds
- Prefabricated scaffold systems
- Layher system scaffolding
- Birdcage scaffolding
- Rigging scaffolds

# Engineered Access

---

Murphy's is able to utilise engineered access for their works and we have our own in-house capabilities for this.

Examples of engineered access include:

- Drop scaffolds
- Suspended scaffolds
- Swing stage access platforms
- Moving scaffold modules
- Designed scaffolds
